Shaker 5-Panel Frosted Glass Primed Solid MDF Slab Barn Door

The interior 5 panel shaker style doors are primed so that you can paint them to perfectly match the interior of your home. They feature a solid core with an MDF face giving you a clean and modern look. Finished Joint lines are characteristic of real wooden products.

- Opening Width is suggested to be 4-in smaller than the door width, this allows 2-in door overlap per side, Finished Opening Height is suggested to be at least 2-in.
- Joint lines are characteristic of real wooden products.
- Door slab only, hardware and track not included.
